

# **MinEx Health and Safety Statistics Q4 2020 – October to December**

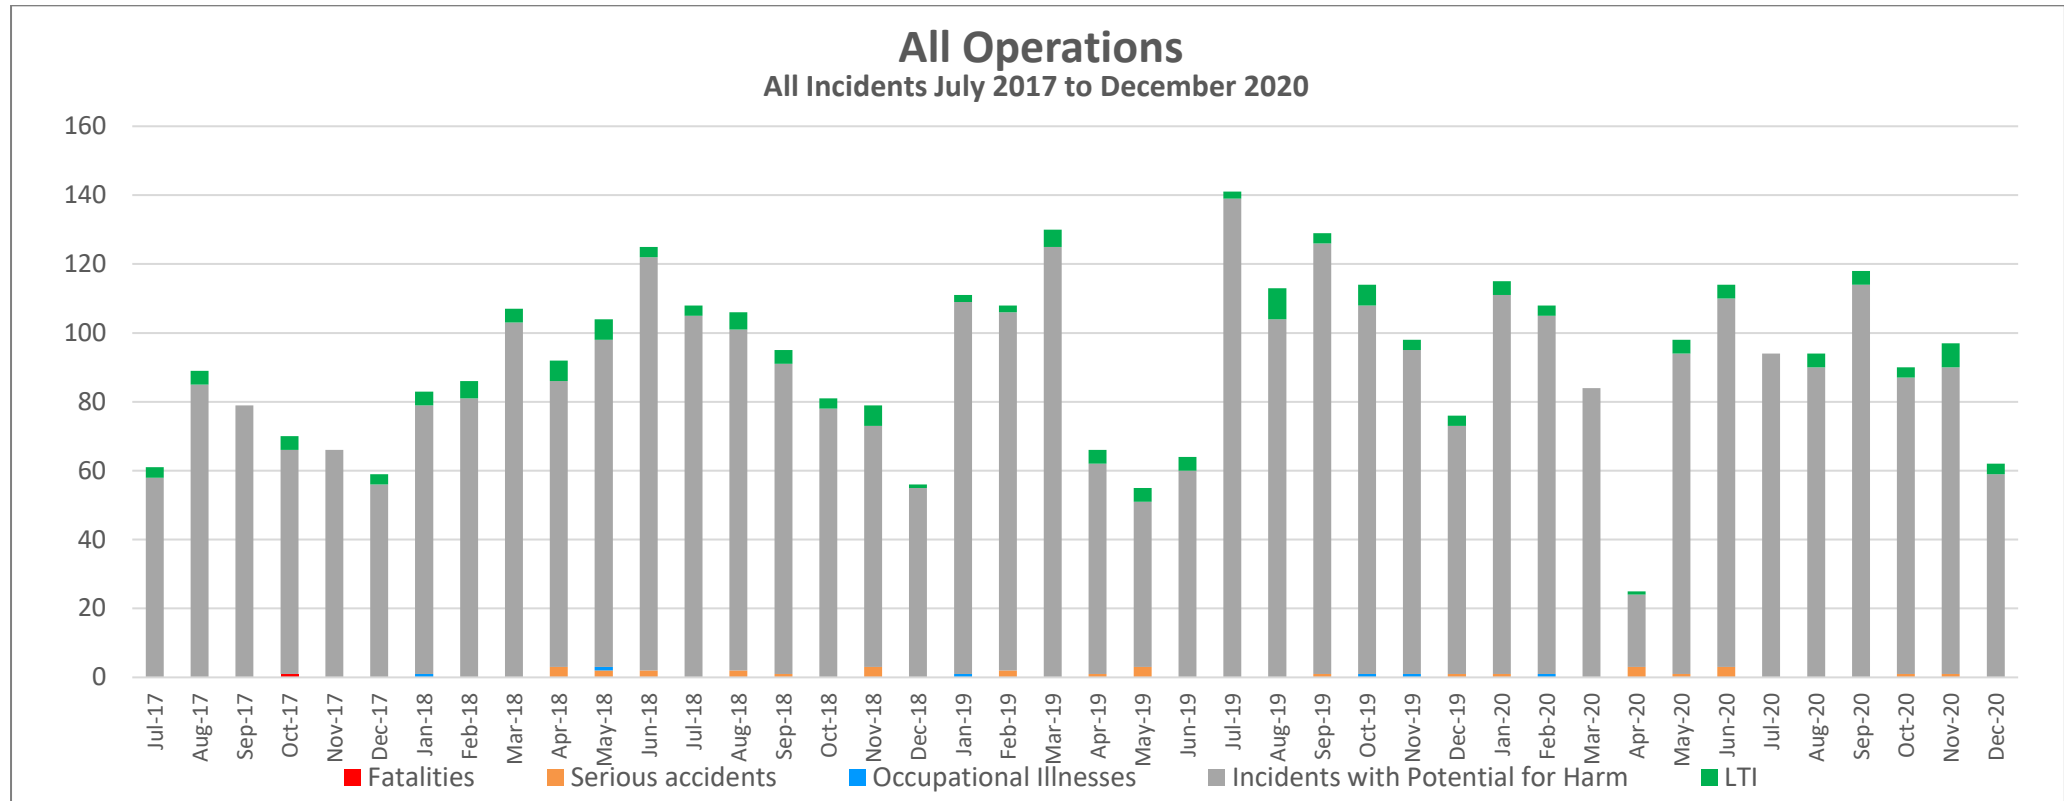

## Definitions

<b>Fatality</b>	A fatality is a death resulting from an incident of hazardous exposure involving work, regardless of the time intervening between injury and death.
<b>Serious accident</b>	A serious accident is an incident which results in admittance to hospital for treatment.
<b>Occupational illness</b>	An occupational illness is any work-related abnormal condition or disorder, other than one resulting from a work injury, caused by or mainly caused by exposures at work which results in an adverse reaction within a body system.
<b>Incident with potential for harm</b>	An incident that, under different circumstances, might easily have resulted in a serious injury, fatality or catastrophic loss.
<b>Lost Time Injury (LTI)</b>	Lost time injury or occupational illness resulting in an inability to work on the next rostered day or shift subsequent to the injury occurring.
<b>Medical Treatment (MTI)</b>	A work-related injury or occupational illness that is not an LTI and which results in injury or illness that requires medical treatment at a higher level than first aid, generally from a doctor or a related professional such as a physiotherapist.
<b>Hours worked</b>	The total number of hours worked including overtime and training but excluding leave, sickness and other absences. Used to calculate incident rate.
<b>Falls</b>	Includes: <ul style="list-style-type: none"> <li>• Fall of ground (rock fall, stockpile collapse, ground movement)</li> <li>• Fall of equipment (tool, plant, other object)</li> <li>• Fall of person (slips, trips, falls, bumps)</li> </ul>
<b>Collision</b>	Includes: <ul style="list-style-type: none"> <li>• Vehicle collision</li> <li>• Loss of control of a vehicle (any incident involving vehicle other than collision)</li> <li>• Person hit by a vehicle</li> </ul>
<b>Entanglement</b>	Includes: <ul style="list-style-type: none"> <li>• Person caught/injured in plant (conveyors, drive belts, crush injury)</li> <li>• Injuries from plant (laceration, pinched finger)</li> </ul>
<b>Release of pressure</b>	Includes: <ul style="list-style-type: none"> <li>• Uncontrolled electrical incident (isolation breach, electric shock)</li> <li>• Uncontrolled hydraulic pressure event</li> <li>• Uncontrolled explosive event (misfire, blast-related issue)</li> </ul>
<b>Environmental</b>	Includes ventilation, gas, dust, noise
<b>Hazardous substances</b>	Worker exposure to hazardous substances
<b>Occupational injuries</b>	Minor injuries from work activity including cuts, bruises, sprains etc.

## TRIFR Data: All Operations – 2 years to December 2020

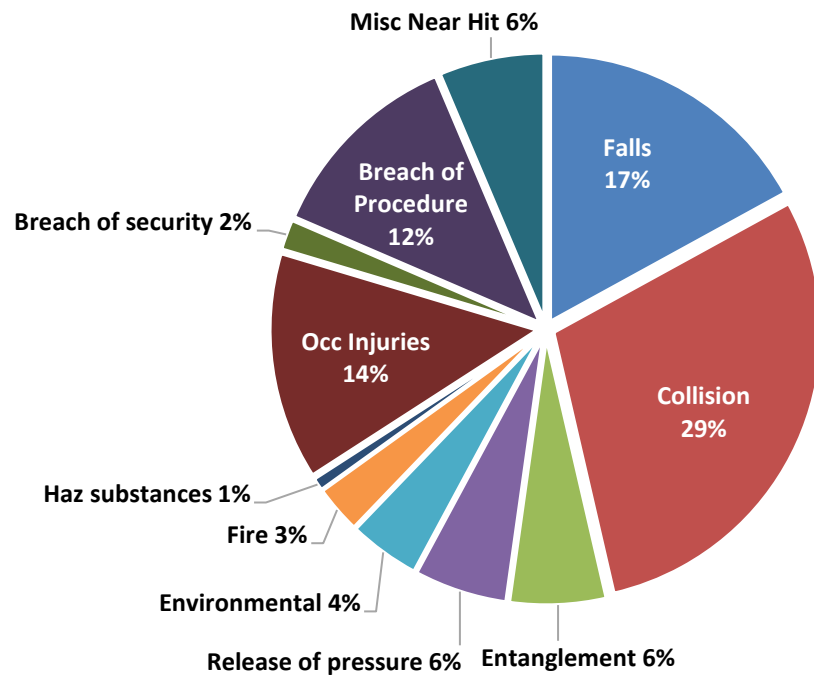

## All Incidents: All Operations – by category (including potentials/near hits) July 2017 to December 2020

Note: No serious accidents collected before April 2018

## Incident Breakdown: All Operations – by category (including potentials/near hits)

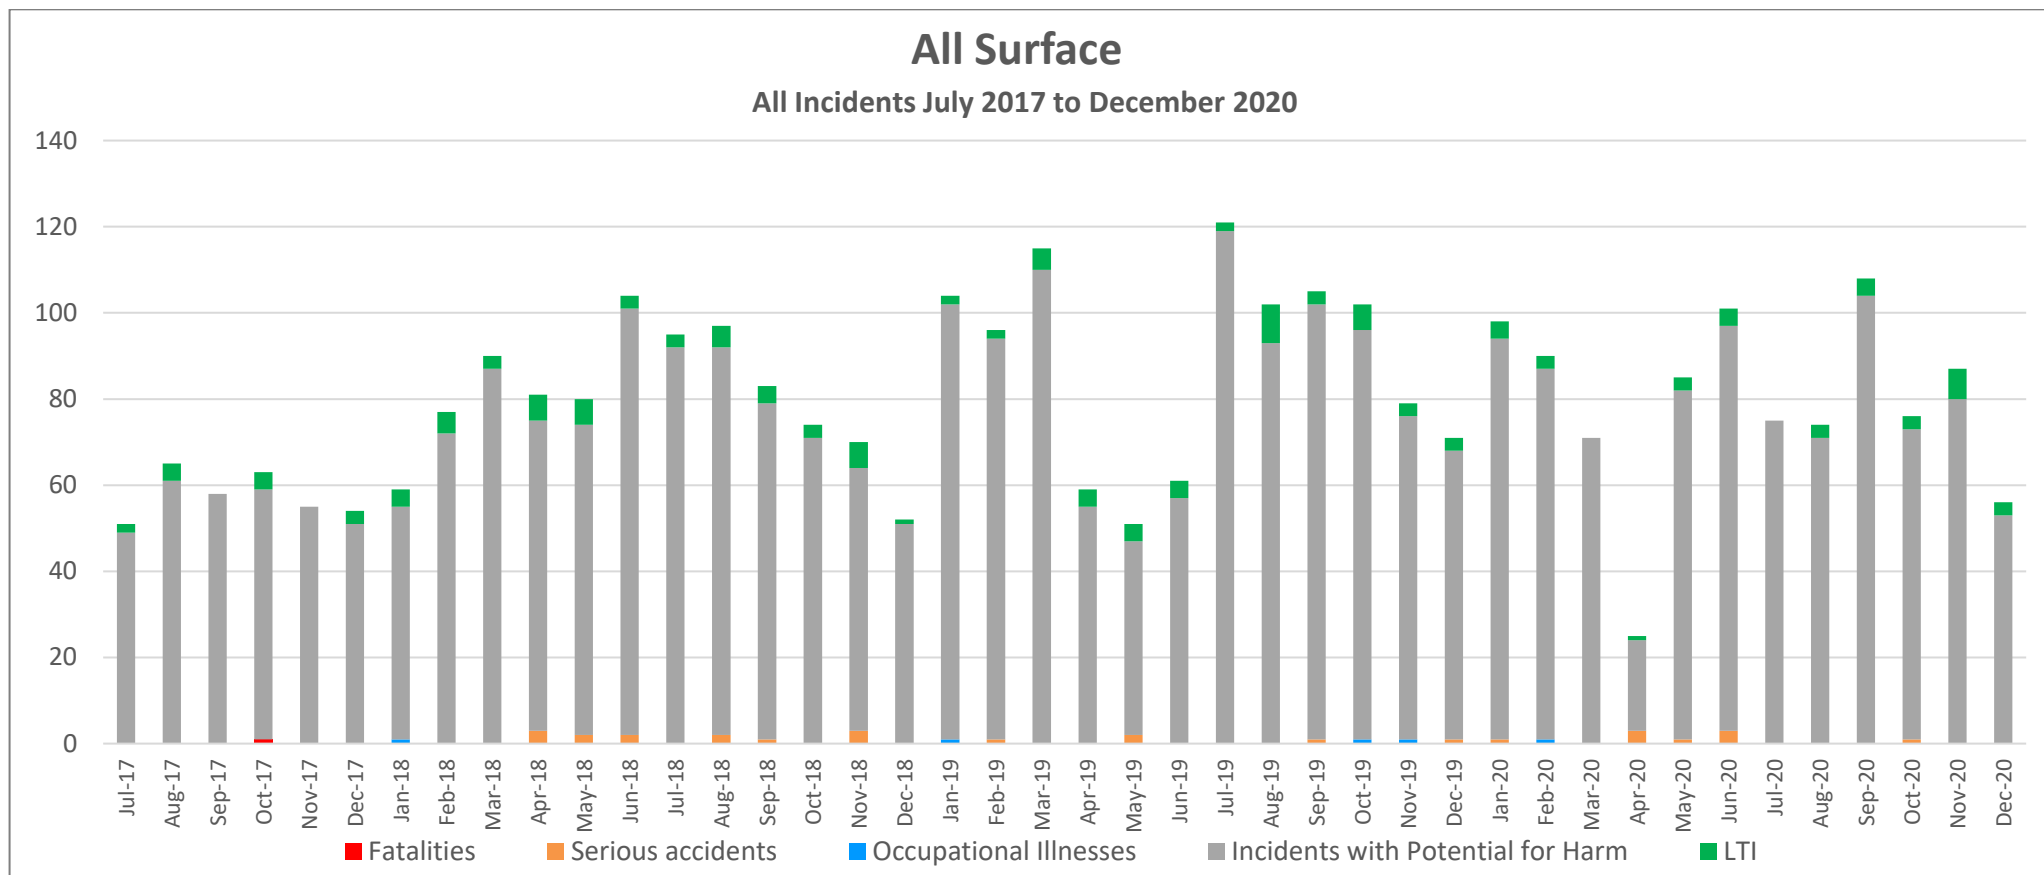

**All Operations - All Incidents  
July 2017 to December 2020**

**All Operations - All incidents  
Q4 October to December 2020**

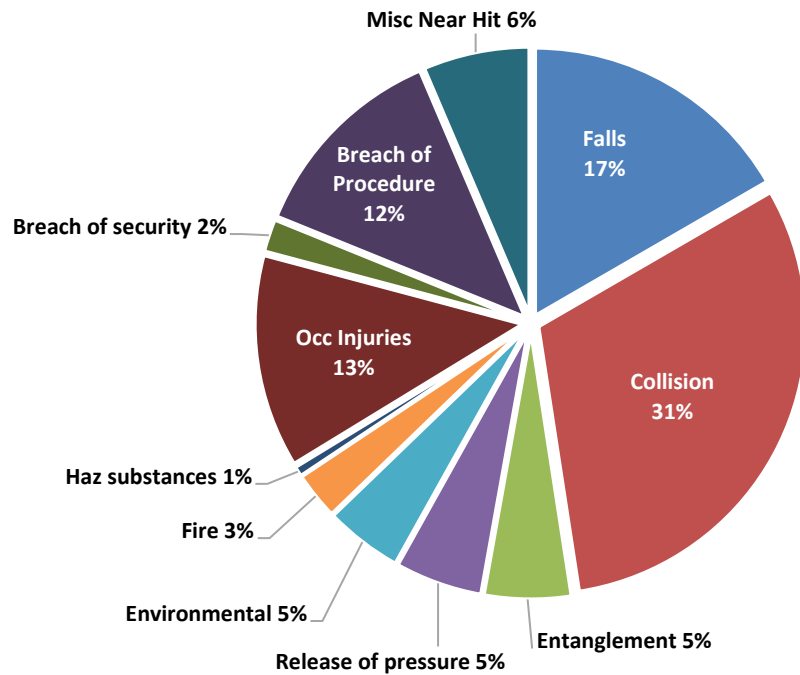

## All Incidents: All Surface – by category (including potentials/near hits) July 2017 to December 2020

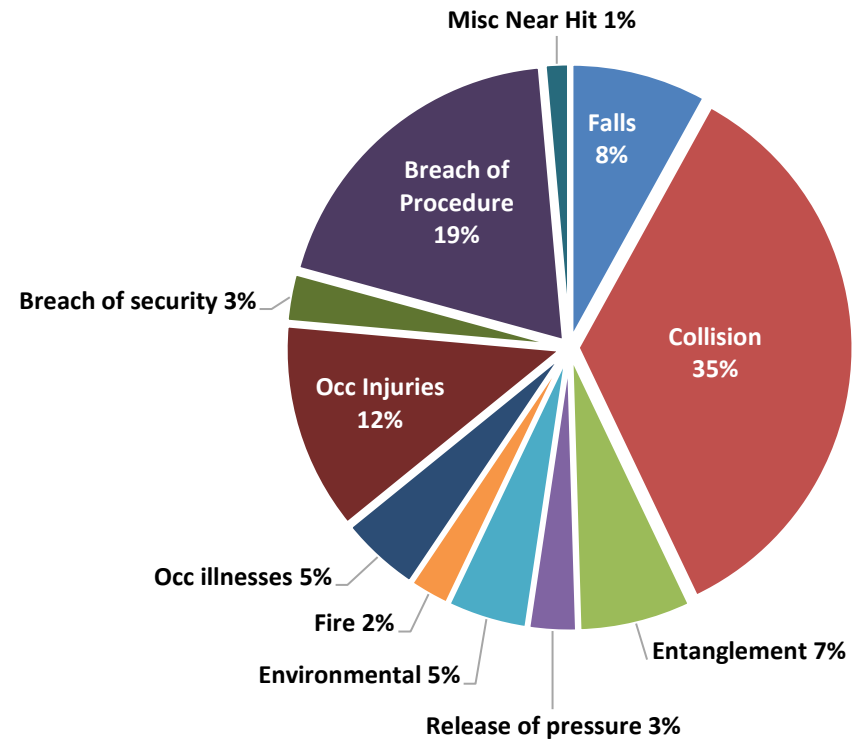

Note: No serious accidents collected before April 2018

## Incident Breakdown: All Surface – by category (including potentials/near hits)

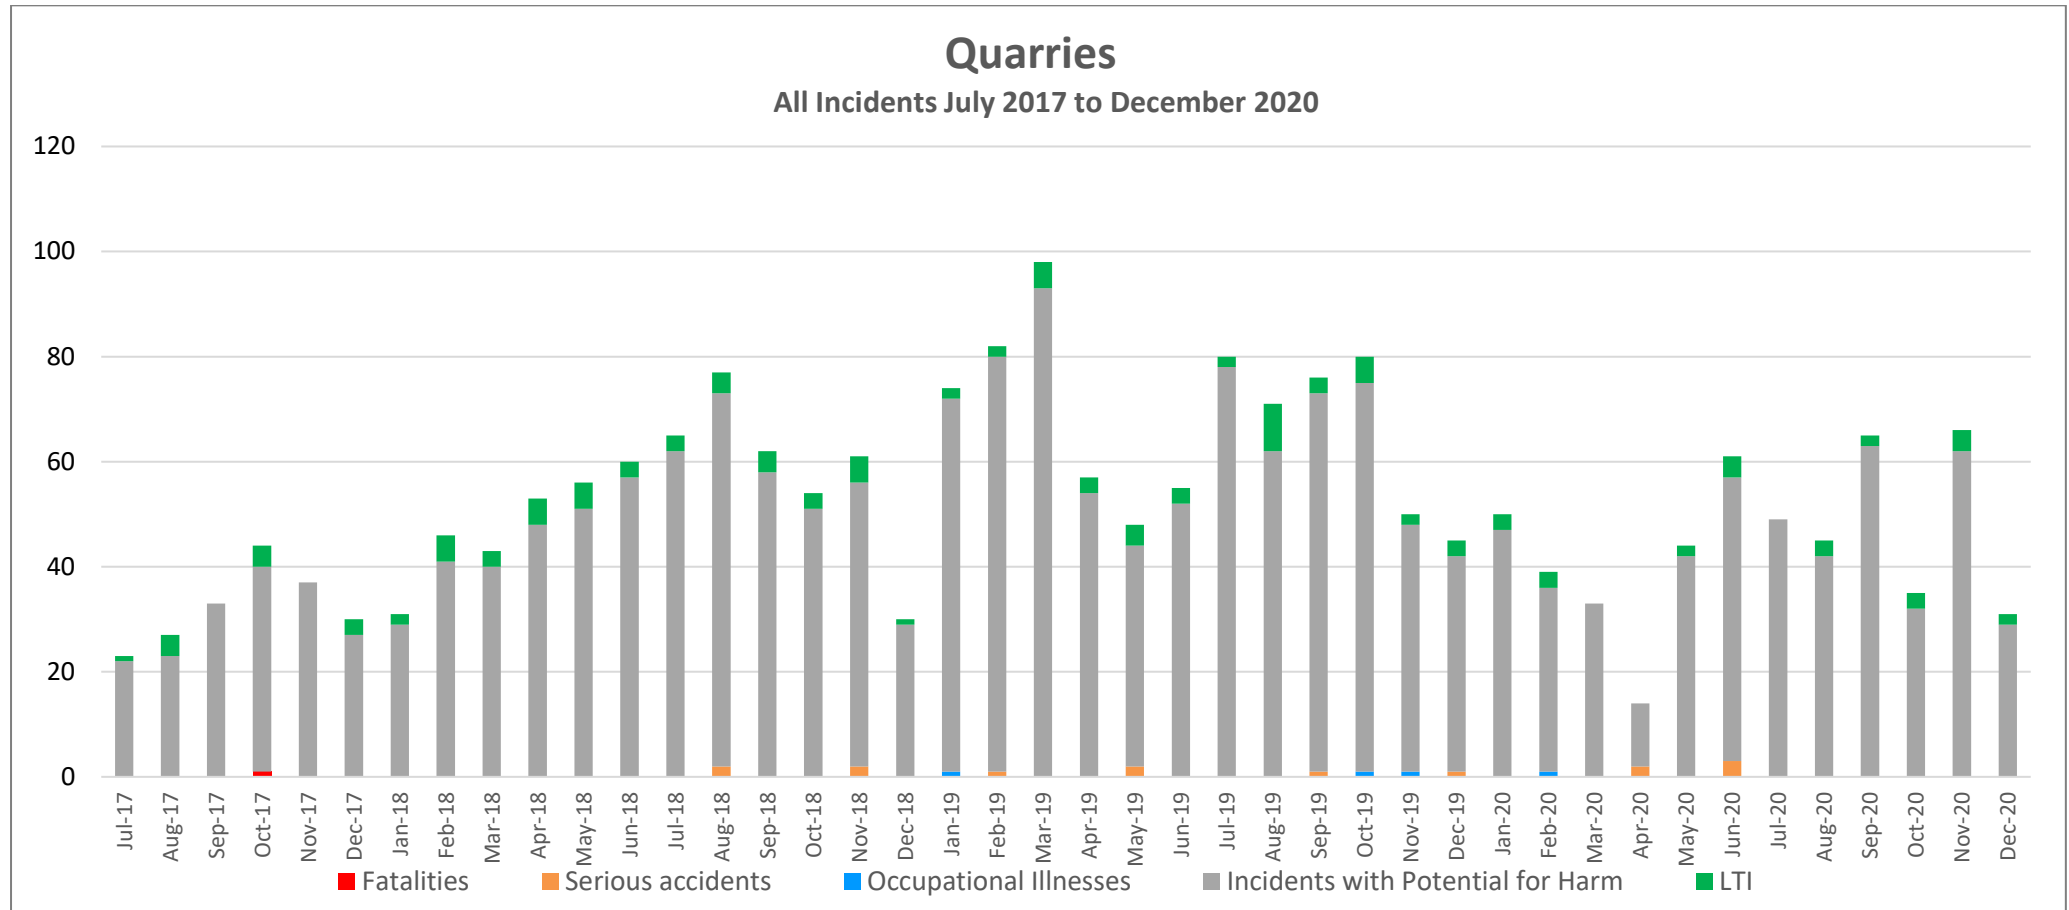

**All Surface - All Incidents  
July 2017 to December 2020**

**All Surface - All incidents  
Q4 October to December 2020**

## All Incidents: Quarries – by category (including potentials/near hits) July 2017 to December 2020

Note: No serious accidents collected before April 2018

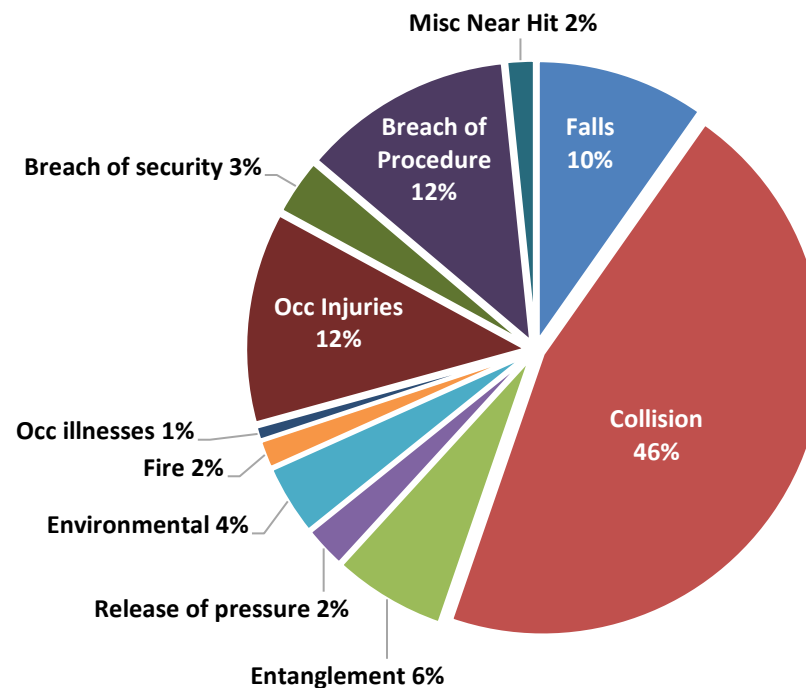

## Incident Breakdown: Quarries – by category (including potentials/near hits)

**Quarries all incidents  
July 2017 to December 2020**

**Quarries all incidents  
Q4 October to December 2020**

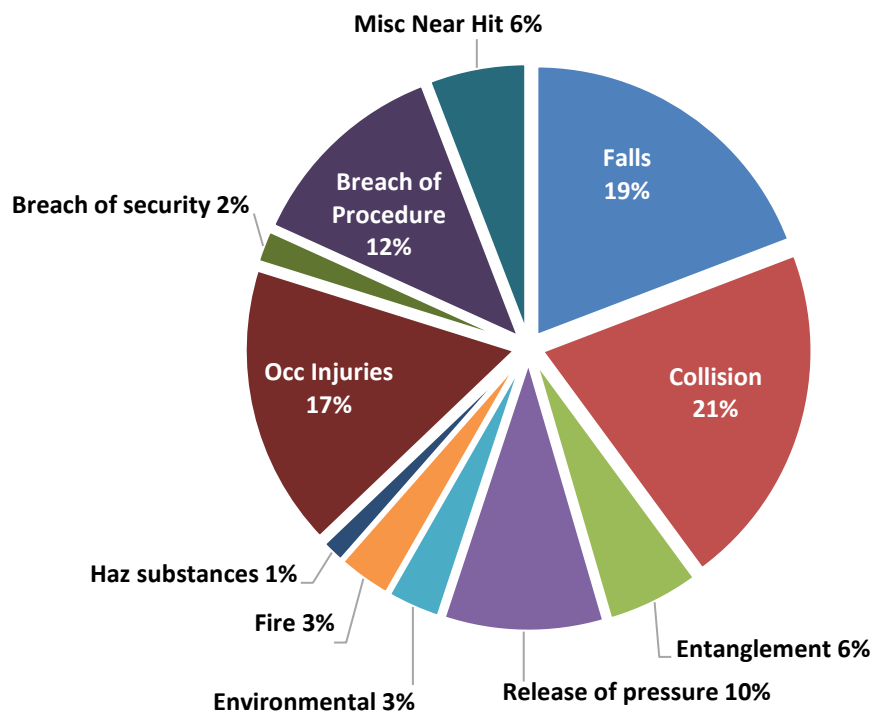

## All Incidents: Surface – Metalliferous by category (including potentials/near hits) July 2017 to December 2020

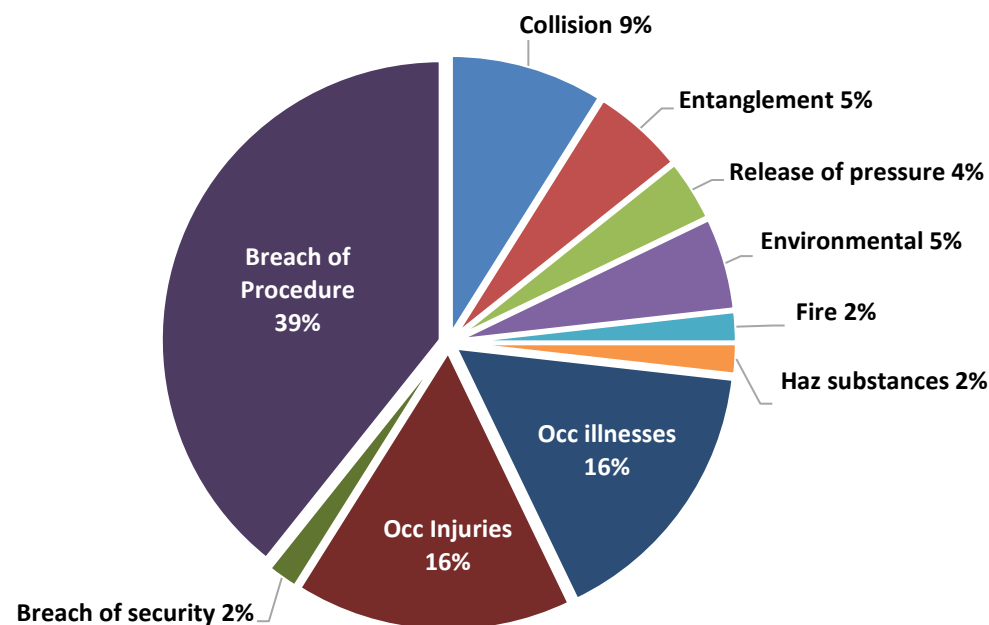

Note: No serious accidents collected before April 2018

## Incident Breakdown: Surface – Metalliferous by category (including potentials/near hits)

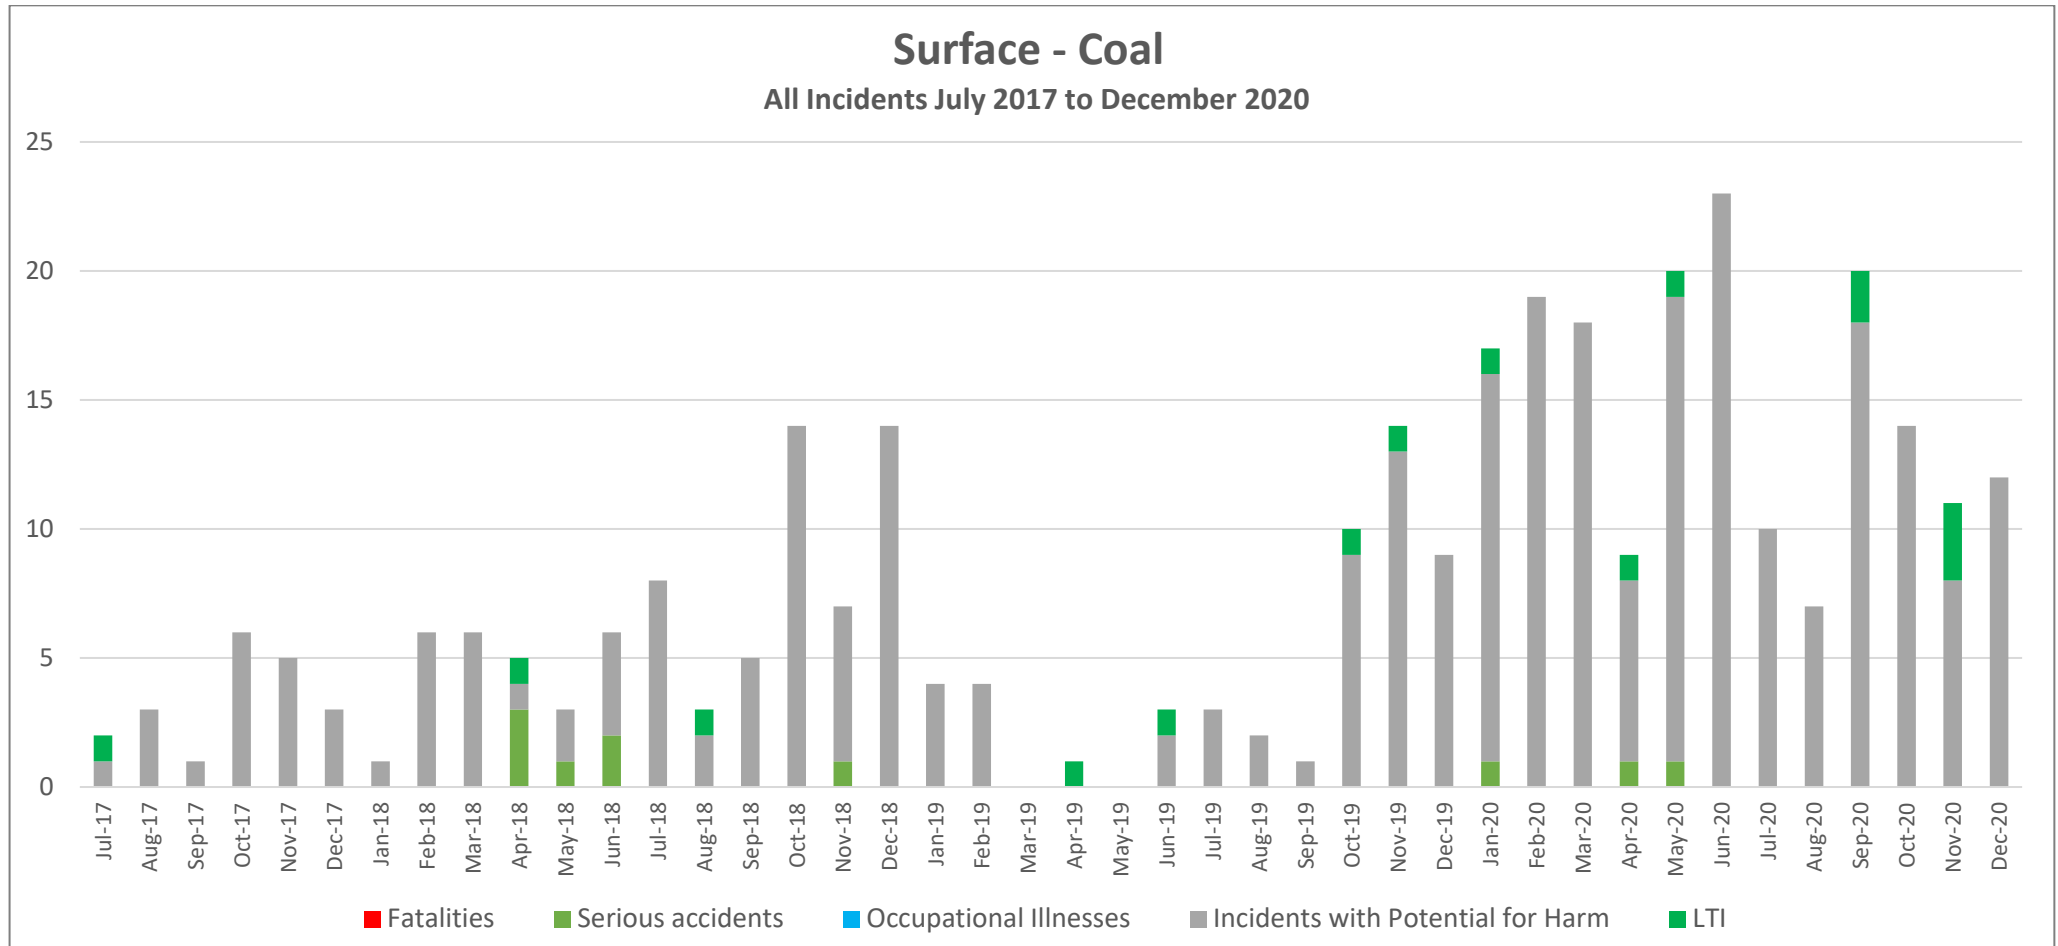

Surface - Metalliferous all incidents  
July 2017 to December 2020

Surface - Metalliferous all incidents  
Q4 October to December 2020

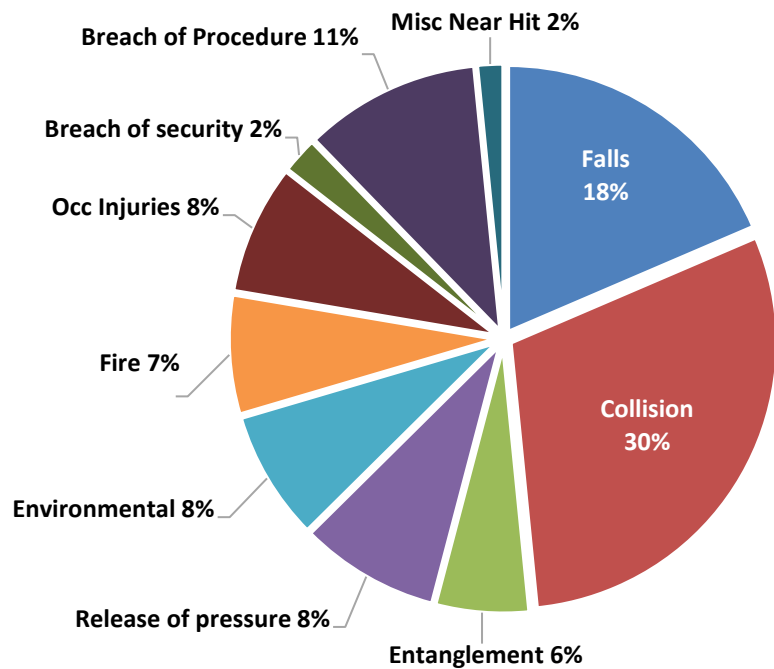

## All Incidents: Surface – Coal by category (including potentials/near hits) July 2017 to December 2020

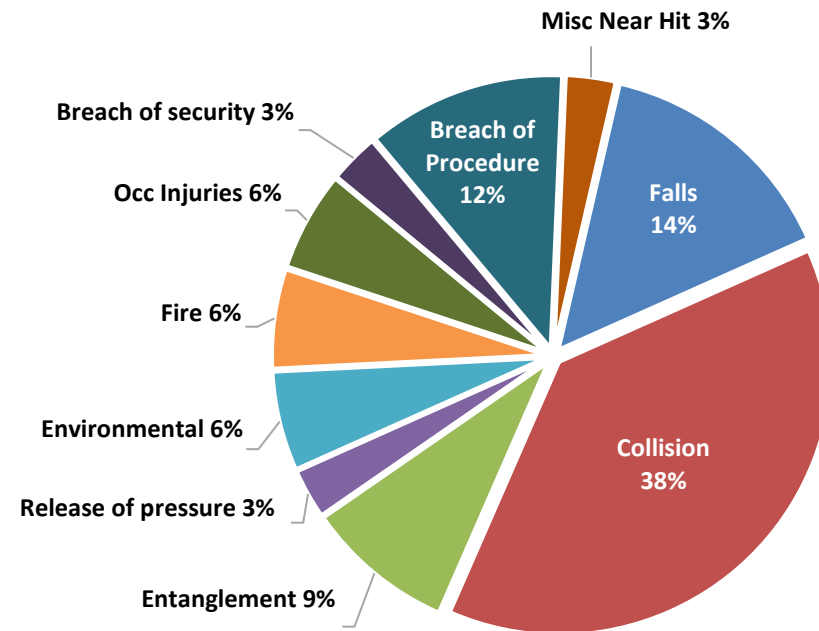

Note: No serious accidents collected before April 2018

## Incident Breakdown: Surface – Coal by category (including potentials/near hits)

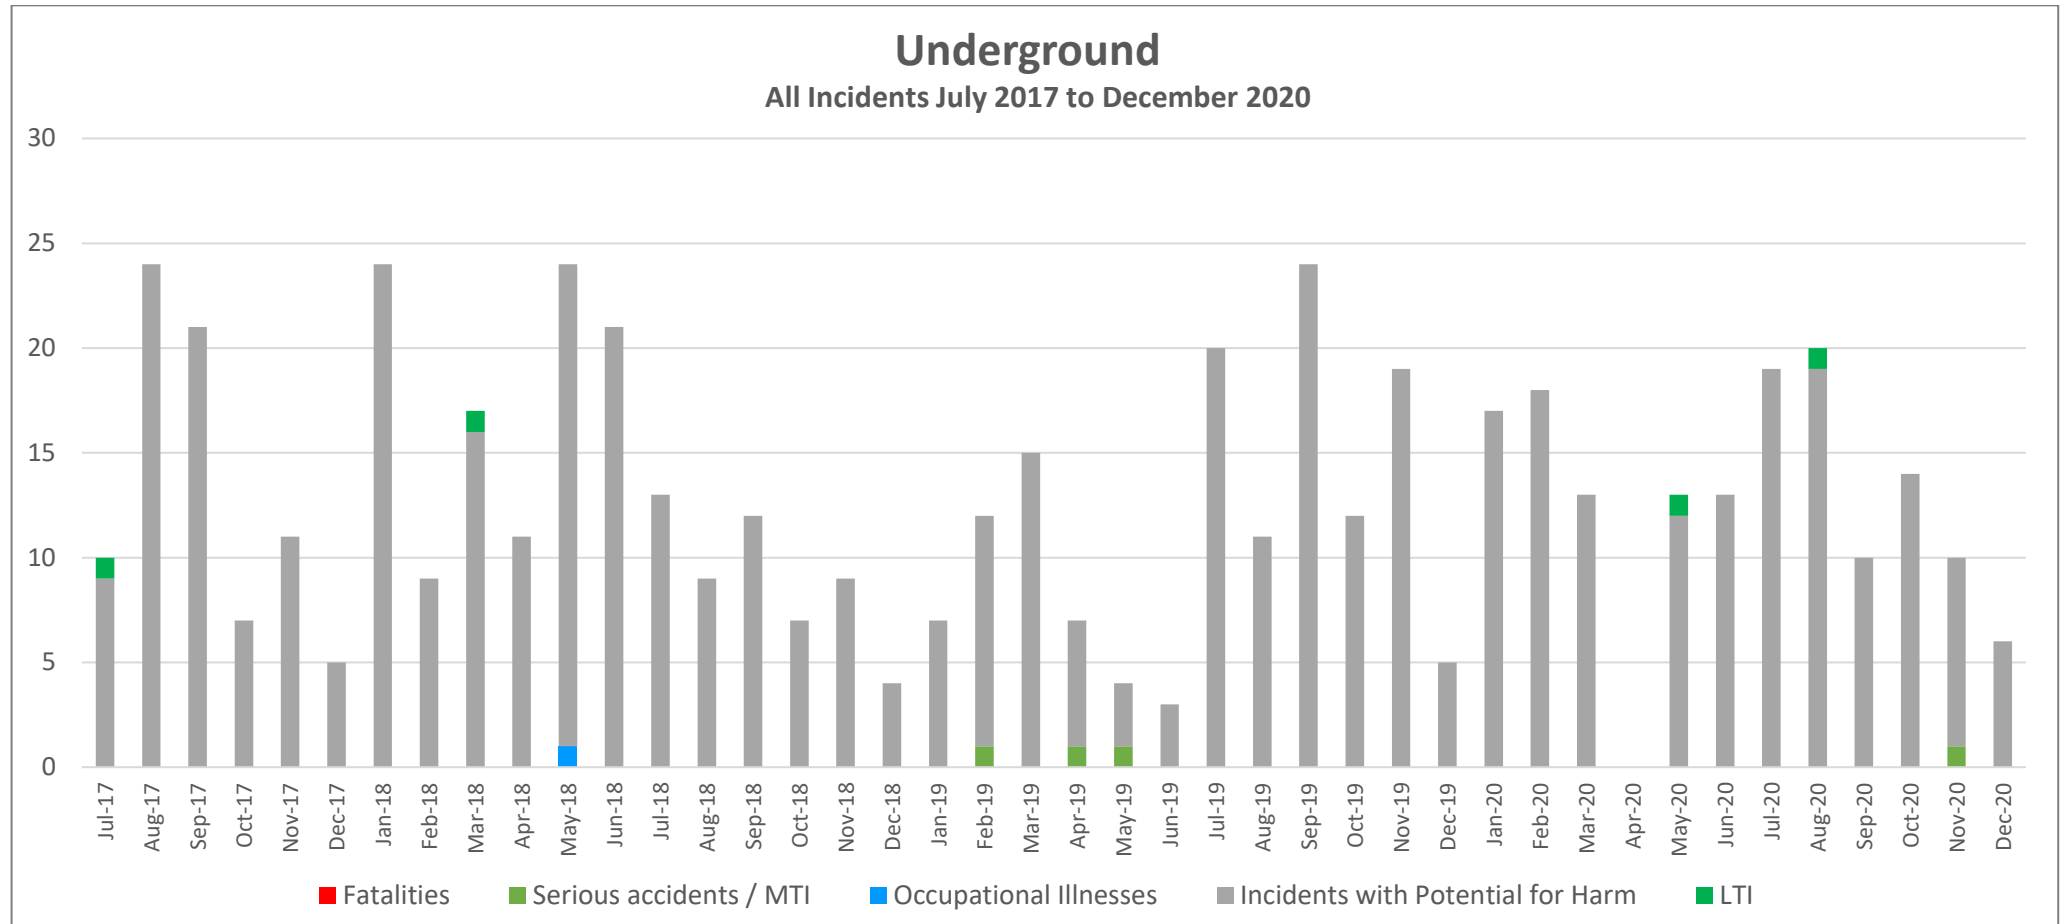

Surface - Coal all incidents  
July 2017 to December 2020

Surface - Coal all incidents  
Q4 October to December 2020

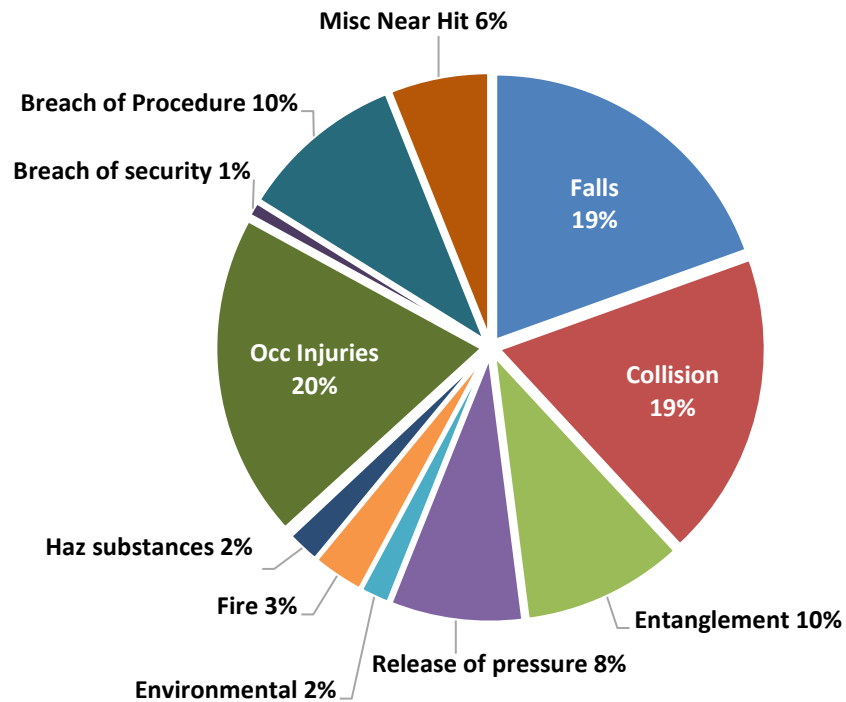

## All Incidents: Underground by category (including potentials/near hits) July 2017 to December 2020

Note: No serious accidents collected before April 2018

## Incident Breakdown: Underground by category (including potentials/near hits)

**Underground all incidents  
July 2017 to December 2020**

**Underground all incidents  
Q4 October to December 2020**
